

ESP Advanced Training Center for Pancreatobiliary Pathology

- Name of the center and address:**

Institute of Pathology

University Hospital of Duesseldorf

Moorenstrasse 5

40225, Duesseldorf

Germany

- Chair of the Center:**

Prof. Dr. Irene Esposito

- Head of the training programme:**

Prof. Dr. Irene Esposito

- Trainers**

Prof. Dr. Irene Esposito

Dr. Aslihan Yavas

Dr. Lena Haeberle

Dr. Martin Schramm (cytopathology)

- Details about specific areas in which training can be offered:**

Pancreatobiliary pathology

Pancreatobiliary pathology is one of the most challenging areas of diagnostic pathology. Due to the limited number of high-volume centers performing pancreatobiliary surgery, the complex anatomy of the resection specimens and the variety of neoplastic and non-neoplastic diseases involving these organs, pancreatobiliary pathology requires a highly experienced and dedicated staff. The University Hospital of Duesseldorf is one of the largest medical centers of Nordrhine-Westfalia, the most populated region of Germany and is member of the Center for Integrative Oncology Aachen- Bonn- Cologne- Duesseldorf (CIO-ABCD; <https://krebszentrum-cio.de/>). The Institute of Pathology at the University Hospital of Duesseldorf provides histopathologic, cytologic and molecular-pathological diagnostics and is one of the leading departments in Germany for the diagnostic of pancreatic and biliary neoplasia, being involved in clinical studies, in the development of interdisciplinary guidelines for diagnostic and therapy and in educational activities in this field. In addition, the University Hospital of Düsseldorf is member of the German Network for Personalized Medicine and utilizes precision medicine with personalized therapy

options and up-to-date molecular pathology by analyzing molecular therapy targets in different tumor entities by next generation sequencing (NGS)-based methods.

Training program:

- Participation in processing/reporting of daily routine cases (grossing, histopathology)
- Participation in reporting of second-opinion cases
- Participation in immunohistochemical and molecular analyses
- Microscopy of case collection (n>200) of pancreatic and biliary pathology cases under guidance with particular focus on preinvasive lesions
- Pancreatobiliary cytopathology training
- Participation in morphology-based research project on pancreatobiliary diseases
- Research in progress meeting and journal Club (1h weekly)
- Participation in regular interdisciplinary meetings (2 h weekly)
- Molecular tumor board with CIO-ABCD (1 h weekly)

• Number of positions offered for each year:

The institution offers 1 trainee position per year for a duration of 3-6 months.

Specific periods of the year when the visit may be realized:

The training can start at any time during the year except middle December- middle January and July-August.

• Other conditions:

The institution will assist the trainee in finding an accommodation for a reasonable price, provide a letter of invitation and support in getting necessary visa, insurance or other documents if required. After completion of the training the trainee will receive a detailed certificate describing the work. Training will not be charged.

• Contact address for requesting details:

Dr. Aslihan Yavas

Institute of Pathology

University Hospital Duesseldorf

Moorenstrasse 5

40225, Duesseldorf, Germany

Tel: +49 211 81 19077
